SCHOOL SUPPLY DRIVE

BENEFITTING 
**RED APPLE
SUPPLIES**
tools kids need to succeed

“One of my students is homeless and he kept coming without a book bag and supplies. It took the burden away by being able to take him to my closet to pick out a bag and his supplies. It made him feel at ease and helped erase the pain and suffering he was experiencing”.

“Many of my students are too ashamed to say they can’t afford materials or their parents neglected to buy them supplies, I usually give students an opportunity to get whatever supplies or material they need to take home. This would not be possible without Red Apple Supplies.”
